

THE HICKMAN COURIER.

HICKMAN, KY.,

FRIDAY, JUNE 1, 1865.

New Orleans police have discovered the Italian Made of that city again at work.

It is said the administration has about given up hope that this Congress will do anything for our country.

In a letter to the State Department Mexico declines the United States' suggestion of arbitrating the Guatamala row.

CHAIRMAN WILSON has introduced his bill to prohibit the importation of cotton differential on sugar in the slaves.

The Caldwell county democrats have reorganized their county committee and are preparing for a vigorous fight in the State election.

The fourteenth annual state convention of the Young Men's Christian Association of Kentucky will be held in Lexington, Saturday, July 21, 22, 23 and 24.

Once by one the Kentucky towns are providing against fire by putting water tanks in the system.

On the fourteenth day of June, the committee having the matter in hand has completed all necessary arrangements. Twenty sections reserved and two are to close out of each township.

COMMENCING May 12 and lasting six days, an international conference of the American Central Congress, the committee having the matter in hand has completed all necessary arrangements. Twenty sections reserved and two are to close out of each township.

THE states that formed the Union and Kentucky, Virginia, Maine, New York, West Virginia, and others, have agreed to a bill for school purposes, and yet the people of those states paid or will pay for the territory that has been acquired by the Union, and the states have been as liberal.

THE states that formed the Union and Kentucky, Tennessee, Maine, New York, West Virginia, and others, have agreed to a bill for school purposes, and yet the people of those states paid or will pay for the territory that has been acquired by the Union, and the states have been as liberal.

SHERIFFS will be interested in the answer that has been given in the question of the fee for waiting on court, it is held that the Sheriff's fee of not exceeding \$2 is due, waiting on county court.

It is also held that in the course of time, the fee is but instances to be paid out of the county levy.

All of the above will be paid by the 17th of the next session.

Frankfort Capital.

CHARLES A. DANA, the editor of the New York Sun, and perhaps the most popular man in the country, recently to an audience of young people, "You have your breakfast," he said, "but you must also have your newspaper. Without it, we are not in the world; we do not know who is married."

At the last session, it will be remembered, the Republicans lost a great many votes because some of the voters could not tell the difference between the two phases, the drafting used by the Republicans and the Constitutional. That will not happen again as the party has now come to a change of heart.

At the meeting of the State Central Committee in Louisville, it was suggested that a five-point plan with a large letter "H" on the right side of the paper, be put for Republicans' justice. The writer will not be finally disposed of until the State convention, in June—Nicholasville Democrat.

THE Chicago Tribune is authority for the statement that during killing in the United States, for this amount of blood shed only 132 persons were hung by law, or hanged, while 1,000 persons suffered the extreme penalty for the crime committed. During the same time 190 persons were hung by law, and 1,000 persons of those hung by mob law were not for killing but for the crime of rape. Of the legal hangings, 100 were for the South, forty-one in the North. This does not mean that more numbers were hanging in the South than the South, but the South has more certain to follow suits of Mass and Dixie's line than north of it.

THE court of appeals has decided that a criminal cannot satisfy his sentence by working in jail at the rate of two dollars per day in keep out of jail. This was in the case of the rich Louisville banker, Mr. Martin N. Hendrickson, who, while in the brig, offered a friend who was trying to keep him out of jail, A Louisville jury unanimously decided that his sentence was to be served in the county jail and a fine of \$1,000.

Louisville Judge more recently of the court, that he might remain out of jail by paying a fine in addition to the two dollars for each day of the sentence. The court, however, as far as the public is concerned, considers the following good advice which the Baltimore Manufacturers' Council gave.

While Southerners are sitting around the stoves these winter days, thinking that should not be a good time for shooting, but a good time for shooting, they should not be so far apart and so sweet to each other.

Cure For Consumption.

There is a remedy been found for consumption. The disease has been removed from the country after it has passed beyond its incipient stages.

Dr. Paul Pagan, of St. Louis, believes that the secret of the blood of horses is by its nature an enemy to the germ of the drowsy disease, and that its efficacy is similar to that employed in the treatment of the animals from which the diphtheria antitoxin is extracted.

He has made a special study of the disease for a number of years, and the results of his investigation are given to the public in the paper he left by his last will before the St. Louis Medical Society. These results are summarized by Dr. Pagan, who considered that the effects following practiced upon consumption patients at the City Hospital and the Penitentiary are still higher, because of the decrease in the number of patients.

He has also found that the effects of the new method of treatment are not so great as those of the old, but that the new method is independent of the old for the removal of the disease.

REPORTER BRICKMAN, of Wisconsin, is a never-say-never sort of a Democrat. He says: "Wisconsin has two Democratic State conventions, and it is to be means certain that she will have any less two years from now. It is true that about one-half of the Democratic State conventions are held in that state, but if the Democrats in Wisconsin, put themselves to another state one-half of the time, the generalization I see no reason why we should not elect a democratic legislature in 1865." Speaking about the bill to prohibit the importation of slaves, Mr. Brickman said: "The Democrats can pass a financial bill, and the Republicans a political bill, and prevent action. If nothing is done in the Senate the responsibility will rest with the Congress. The Constitutional party will be the result the country will surely understand who is to blame. The pathway ahead of the Republicans is to be by means free from thorns."

SCHOOL LANDS.

Kentucky will get 1,335,-

733 Acres of Land

for School Purposes.

It is said that Representative Hooker has prepared and will introduce a bill in the House of Representatives in a few days which, if passed, will give to Kentucky 1,339,733 acres of public land, to be sold for the benefit of her common schools. The bill is intended to realize the States in the matter of distributing land for school purposes.

CHOCOLATE AND COCOA.

Their Differences and Some of the Secrets of Their Preparation.

The difference between chocolate and cocoa is simply that cocoa is chocolate from which the oil has been extracted. As half the cocoa bean is cocoa butter, the difference is considerable. Cocoa is used in the manufacture of chocolate and the difference is for so far exceeds the supply in this country that over one thousand tons of chocolate were imported last year.

It is the cocoa butter that gives the gloss to the sweet chocolate cake, and it is the

same in the mixture of chocolate

and sugar as in the

cooking chocolate and vanilla. It

make cakes for drinking purposes

the cocoa butter is used in the

various ways, by pressure,

filtration, or some chemical process,

in the thought of the

chocolate grinder and placed in

little cacao bags and then put in a

hydraulic press, when the

chocolate is driven the oil out of the

chocolate and leaves the cocoa in solid, dry,

oil and a malleable

mass, which is then

shredded, melted and

then taken to the

chocolate manufacturer

and the oil is removed

and taken away to be

ground for further operations.

If the cocoa is wanted for

drinking purposes

it is then melted and

placed in a tank and

cooled in a tank and

then packed in boxes.

If for eating or

confectionery, it is

then melted and

placed in a mixture of

sugar and chocolate

and then packed in

boxes.

The secret of making chocolate and cocoa is to keep the oil out of the

chocolate and to guard

it in the blending of

several varieties of

chocolate and to mix

them in various ways,

by pressure, filtration,

or some chemical process,

in the thought of the

chocolate grinder and placed in

little cacao bags and then put in a
